

Annual Report 2009

www.mtiwe.com

High Quality Low Cost
Antennas for **Wireless** Applications

Company Overview

MTI is a developer and manufacturer of sophisticated antennas and antenna systems, including antennas that are sold for use in WiMAX compliant systems. In 2009 the company successfully operated its new opened manufacturing facility in India which was already profitable. MTI is now based in Israel and India, employing (as of 31 December 2009) a total of 80 employees.

The Company produces antennas ranging in frequency from 2MHz to 90GHz, for both military and commercial applications and has an international customer base. In the past two years MTI's business has suffered from the macro economic slow down which resulted in lower demand for its products. Nevertheless, as wireless broadband technology is increasingly becoming a part of everyday's broadband requirement the Company believes in the long term growth in demand. Nearly 70% of the Company's sales are in the fixed wireless communications market, predominantly for broadband systems. The Directors estimate that the Company is still a leader in the global market share in the FBWA antenna market largely, via a number of leading OEMs who are MTI's customers.

Revenue & Gross Profit 2004 – 2009
 (US dollar in thousands)

Operating & Net Profit 2004 – 2009
 (US dollar in thousands)

2009 Highlights

- Revenues decreased by 25% to \$13.5m (2008: \$17.9m);
- Gross profit down 27% to \$4.7m (2008: \$6.4m);
- Company ended 2009 with minor operating profit of \$0.1m (2008: \$0.9m);
- Breakeven in 2009 compared with net Profit of \$1m in 2008, representing EPS of 0.03c compared with 1.89c in previous year;
- Net cash generated from continuing operations reached \$1.1m;
- Net cash, cash equivalents and marketable securities at the year end of \$13.5m, equivalent to 17pence per share;
- Indian facility became operational profitable during 2009.

Revenue by segments – 2009

■ Cash generated from operations

Chairman's letter to Shareholders

Dear Shareholders,

I am pleased to report on our audited results for the financial year ended 31 December 2009 - a very challenging year in terms of the global macro economy. We started the year with a great deal of uncertainty as to the effect that the worldwide recession would have on our business. This soon became clear with our key market, antennas for broadband communications, suffering shrinkage of approximately 30%. I am pleased to report that our management team took immediate action and was able to maintain the business at breakeven, with positive cash flow and without harming the potential future growth of the company, through maintaining a very strong balance sheet.

The market shrinkage in 2009, together with the resulting increase in competition, created a more difficult trading environment but we were able to maintain our leadership based on the quality of our products and our long term relationships with key customers. Our Indian manufacturing facility, which was operating for a first full year, helped to reduce costs and improved our ability to service customers in India and elsewhere. We see the Indian market as a promising one and believe that our local presence will benefit us further as it develops.

As stated last year, the underlying drivers of our business, such as growth in data usage and subscriber growth, are part of long term trends expected to continue for several years. Although we see government stimulus funding continues and broadband becoming a national imperative, we lack short term visibility as customers focus on maintaining flexibility and conserving cash in response to the global recession.

The Board has decided not to distribute a dividend this year as we strongly believe it is in the interest of shareholders to conserve cash at this point of time. We do believe that in the long run investors are entitled to receive an annual yield on their investment, while the company is managing its earnings and cash generation, and will return to a dividend once the company returns to profitability.

I would like to compliment our employees on their contribution to the company and thank each and every one for their dedication and creativity, which has enabled us to maintain our leadership. I further would like to acknowledge with thanks the employees' families for their continued support.

Zvi Borovitz
Non Executive Chairman

Chief Executive's Review

In 2009, the WiMAX industry has suffered from the global recession and all leading companies in this area reported revenues significantly lower than in 2008. Our business suffered a 25% decline in total revenue, due to the softness in this fixed broadband wireless market. Although we have experienced a difficult year we are certain that the demand for primary broadband connectivity and data usage are both in long term growth trends that require new solutions which improve the total cost of ownership for operators.

Our immediate challenge remains to win further major deals while supporting existing customers, and to take a larger share of the available business in a very competitive environment. In 2009, we managed to maintain our position as a leader in the field of antennas for broadband applications, which the directors believe will win the bulk of the Fixed Broadband Wireless business in years to come. At the start of 2009, we took the necessary operational measures to ensure that the company remains cash flow positive without harming our future potential growth – this will be our guideline for as long as we feel that the market is unstable. Our focus is to emerge stronger from this recession, supplying our customers with a better and wider range of products based on our advanced technology. Our operating facility in India produced nearly 10% of our revenue in 2009, making our offering even more compelling in this competitive environment.

The Company remains focused on growth and on expanding its position as a leader in the antenna markets for fixed wireless communication. In 2009, we were able to further develop our product offering, including antennas for the short range point to point backhaul market in the 60 -90 GHz. bandwidth, which we expect to generate revenues from 2010 onwards.

As we have previously stated, although RFID is only in its initial stages, we continue to strongly believe in the potential of this market and were able to strengthen our position with revenue growth over the previous year. We foresee 2010 as a next step in the growth of this market and plan to ensure that MTI remains well positioned to enjoy success once this market enters the full deployment stage.

Our military segment returned to growth in 2009 as part of the long term growth we have experienced in the past few years, trend a which we expect to continue in 2009 and beyond.

As always, our non-military pipeline reflects the industry norm of placing orders only several weeks in advance. This, coupled with current global economic recession, forces customers to focus on risk management and reducing inventory levels, which reduces the visibility of our order book. We remain confident in our market position and the long-term growth inherent in our major markets.

I would like to end my review by thanking the employees and their families for the hard work, dedication and support during the past year. It is their creativity, perfectionism and implementation that led MTI to its position in the market and we see them as the key to our ongoing success.

Dov Feiner
Chief Executive Officer

Our Board

Zvi Borovitz – Chairman
Non Executive Director
Age 71

Zvi founded MTI in the early 70's together with his late wife Aya. He has more the 40 years of experience in the development and management of high tech companies. Zvi holds an MS in Electrical Engineering from the Polytechnic Institute of Brooklyn.

Dov Feiner – Chief Executive
Executive Director
Age 54

Dov has planned and implemented the Company's entry into the commercial antenna market. Prior to joining the Company, Dov served for 12 years in the research and development division of the Israeli Defense Force. Dov holds a B.Sc. in Electrical and Computer Engineering from Ben Gurion University where he graduated with honors.

Moshe (Moni) Borovitz – Finance Director
Executive Director
Age 39

Moni, the son of Zvi Borovitz, is also Co-Chief Executive Officer of MTI Computers. He was a consultant with Ernst & Young's Israeli affiliate Kost Forer & Gabbay, a leading Israeli certified public accountancy firm. Moni is a certified public accountant with a B.A. in Computer Science from Tel Aviv University, and has an MBA from Ben Gurion University.

Hanna (Hani) Lerman - Non Executive Director

Age 37

Hani was until recently the Chief Financial Officer of Storewiz, prior to that she served as the CFO of SunGard Business Integration Ltd., a subsidiary of SunGard Data Systems Inc., a global leader in software and processing solutions for financial services, and of Insider Online. Prior to that Hani managed the department of professional practice at KPMG Israel. Hani is a certified public accountant and holds a B.A. in Economics and Accounting, and an MBA majoring in Finance from Tel Aviv University.

Stewart Millman - Non Executive Director

Chairman of the Remuneration and Audit Committee

Age 61

Stewart has over 30 years' experience in finance and the financial markets. He was an institutional fund manager for 10 years and a corporate financier for 20 years, including managing director roles at Barclays de Zoete Wedd, NatWest Markets and HSBC Investment Bank. His corporate finance experience includes transactions involving major telecoms operators and various IT companies. Since 2002, he has been self-employed, is currently non-executive chairman of Patsystems plc, a company traded on AIM, and acts as an adviser to, and/or non-executive director of, various companies in the UK, Israel and elsewhere.

Corporate Governance

The following statement of corporate governance reflects the position of the Company as at 31 December 2009.

The board is responsible for the Company's corporate governance policy, and recognize the importance of high standard of integrity, and consistently seeks to apply the principles set out in the Combined Code of on Corporate Governance (the "Code") to the extent they are appropriate for, and applicable to, a company of MTIs' size quoted on the AIM market of the London Stock Exchange.

Directors

Pursuant to the provisions of the Israeli Companies Law, the Company has nominated Stewart Millman and Hanna Lerman as external directors. As such, their initial term of an external (independent) director is three years and this may be extended for one additional three-year term. The external (independent) director has to serve on the Audit committee and serves on the Remuneration committee. The rest of the board members are elected annually in the shareholders meeting.

All the directors have access to the advice and services of the Company Secretary and may, in furtherance of their duties, take independent legal and financial advice at the Company's expense. They also have access to the minutes of the Board, in which any concerns expressed by them regarding matters pertaining to the Company are recorded. While there is no formal process, the performance and effectiveness of each director, including the non-executive directors, is assessed on an on-going basis by the other members of the Board. All members of the board are free to bring any matter to the attention of the Board, at any time.

Board Meetings

The Board is responsible for formulating, reviewing and approving the Company's strategy, budgets and corporate actions. The board generally meets five times a year and at such other times as required, and receives regular reports on a wide area of key issues including operational performance, risk management and corporate strategy, budget and corporate actions etc and other areas which are either required by law or deemed relevant by the management.

Committees

The Audit Committee and the Remuneration Committee meet at least once a year.

Audit Committee

The audit committee is chaired by Stewart Millman. The other member is Hanna Lerman. The external auditors, together with the financial director, are invited to attend these meetings as and when required.

In accordance with its terms of reference, the principal function of this committee is to determine the appropriateness of accounting policies to be used in the Company's annual results. In addition the Committee is responsible for assessing the Company's audit arrangements and the Company's system of internal controls, and for reviewing the quarterly and annual results before publication. The responsibilities of the Audit Committee include all matters required to be covered by the Combined Code and the Israeli Companies Law.

The Israeli Companies Law requires the Company to have an internal auditor appointed by the Board. The internal auditor is responsible for examination of the Company's internal controls and reviewing their effectiveness and reports to the Audit Committee.

Remuneration Committee

The Remuneration Committee is chaired by Stewart Millman. The other member is Hanna Lerman. In accordance with its terms of reference, the committee reviews the performance of the executive directors and make recommendations to the Board on matters relating to their remuneration and terms of employment. The committee should also make recommendations to the Board on proposals for the granting of share options and other equity incentives pursuant to any share option scheme or equity incentive scheme. The remuneration arrangements of the non-executive directors are determined by the Board as a whole and, in accordance with the Israeli Companies Law, approved in the Annual General Meeting of its Shareholders.

Relations with Shareholders

The Board welcomes the views of shareholders.

The Annual General Meeting (AGM) is used as an opportunity to communicate with shareholders. All shareholders are encouraged to attend the Company's AGM in order to take advantage of the opportunity to ask questions of the directors.

Shareholders may also contact the Company in writing or via its website, which is regularly updated. Additional information is supplied through the circulation of the Quarterly Report and the Annual Report and Accounts. During the year the Company issued a series of announcements to the Stock Exchange and updated its website in accordance with AIM Rule 26. The Chief Executive, Finance Director and the Chairman from time to time meet individual and institutional shareholders and provide such information as is permissible in order to facilitate a better understanding of the Company's business and operations.

Internal Control

The Board of Directors has overall responsibility both for the Company's system of internal controls, which includes internal financial controls and for reviewing their effectiveness. The directors recognize that no system of internal control can provide absolute assurance. The Company's systems are designed to manage the risk of failure to achieve business objectives and therefore can only provide the directors with reasonable assurance against material misstatement or loss.

The key elements of the Company's internal control system, which have been operational since the Company's flotation in March 2006, are as follows:

Management Structure

The Board has overall responsibility for the Company and there is a formal schedule of matters specifically reserved for decision by the Board. Each executive director has been given responsibility for specific aspects of the Company's affairs.

Monitoring Systems used by the Board

The Board receives regular reports on the financial and business performance of the Company. The Board is regularly advised through these reports on the financial performance relative to the Company's approved budget and update on the backlog and pipeline status.

Internal Audit

The Board has, in accordance with the Israeli Companies Law, appointed Mr. Eyal Weitzman as its internal auditor.

Going Concern

The Directors have a reasonable expectation that the Company has adequate financial resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

Compliance Statement

Corporate Governance procedures are subject to regular review by the Board. Throughout the year the Company complied with the provisions as set out in Section 1 of the Code, to the extent that they are appropriate for, and applicable to, a company of MTI's size quoted on AIM.

Report on Directors' Remuneration

Remuneration Committee

The Remuneration Committee, which comprises all of, and only, only non-executive independent directors, determines Company remuneration (including bonuses and options) of executive directors.

Policy on Company Remuneration

The Company operates in the telecommunication industry. Accordingly, in setting remuneration, the board has to be mindful of competitive pressures from the market, and at the same time controlling its fixed cost base where a high proportion of the Company's expenses are staff related.

The Company maintains a balance between remaining market-competitive and ensuring that some element of total staff remuneration is related to the financial performance of the Company as a whole.

Policy on Senior Executive Remuneration

It remains the Company's policy to set the remuneration of senior executives (including executive directors) at a level to attract and retain executives of appropriate ability, experience and integrity to manage the affairs of the Company. In formulating its remuneration policy, the Remuneration Committee considers pay and employment conditions throughout the Company.

Directors' Remuneration

Name	Total Company cost (including bonuses)	Shares held by each Director
Dov Feiner	\$242K	2,789,000
Moshe Borovitz*	\$227**	113,000
Zvi Borovitz*	**	-
Hanna Lerman	\$20,000	38,461
Stewart Millman	\$20,000	100,000

(*) Each of Zvi and Moshe Borovitz also has an interest in 25 per cent. of Mokirei Aya Ltd. which controls 40.6 per cent. of the issued share capital of MTI Computers (39.37 per cent. on a fully diluted basis), as of 31 December 2009, which has an interest in 52.4 per cent. of the issued share capital of the Company.

(**) Zvi and Moshe Borovitz provide management services to the company through a company controlled by them (the "Management Company"). These management services will consist of the services of Mr. Zvi Borovitz who serves as a non-executive chairman of the Company and Mr. Moshe Borovitz who serves as the finance director of the Company.

Service Contracts

The Company has a service agreement with the Management Company as described above, in respect of the services of Messrs Zvi and Moshe Borovitz. The initial term of this agreement is for a period of two years from the date of Admission and will be automatically renewed for successive two year periods, unless terminated earlier by either party on 90 days' advance written notice.

Dov Feiner has a service contract with a notice provision in excess of six months.

All Non Executive Directors expect the Chairman were entitled for a fee of \$18,000 per annum, paid quarterly. According to the Israeli Companies Law, Non Executive independent Directors (defined as External Directors in the Israeli Companies Law) are elected for three year terms. On March 3, 2009 the two Non Executive Directors of the company were re elected for their second service term.

These fees are determined with reference to available information on the fees paid to Non Executive Directors in other companies of broadly similar size, market cap and complexity. Non Executive Directors are entitled to be reimbursed for reasonable out-of-pocket expenses in line with the policy applied to the Company's employees.

Independent auditors' report to the shareholders of M.T.I Wireless Edge Ltd.

Report on the financial statements

We have audited the accompanying consolidated financial statements of M.T.I Wireless Edge Ltd and its subsidiaries. (hereafter- "the Group"), which comprise the consolidated financial position as at 31 December 2009, and the consolidated statements of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as of December 31, 2009, and of its financial performance, its cash flows and its equity for the year then ended in accordance with International Financial Reporting Standards.

M.T.I Wireless Edge Ltd.

Notes forming part of the consolidated financial statements for the year ended December 31, 2009

The directors of the Company are responsible for the financial information set out below.

1. Accounting policies

General

M.T.I Wireless Edge Ltd. (hereafter - the Company) is an Israeli corporation. It was incorporated under the Companies Act in Israel on December 30, 1998 as a wholly-owned subsidiary of M.T.I Computers and Software Services (1982) Ltd. (hereafter - the Parent Company) and commenced operations on July 1, 2000 and since March 2006, the Company's shares have been traded on the AIM Stock Exchange.

The formal address of the company is 11 Hamelacha Street, Afek industrial Park, Rosh-Ha'Ayin, Israel.

The Company is engaged in the development, design, manufacture and marketing of antennas and accessories.

On March 2008, the Company invested in establishing a wholly owned subsidiary Switzerland based AdvantCom Sarl, (hereafter AdvantCom). AdvantCom is engaged in selling and distributing of antennas and accessories and in manufacturing through an Indian subsidiary.

On February 2009, pursuant to the founder's agreement, 20 percent of the issued and outstanding share capital of GlobalWave Technologies PVT Ltd (formerly a wholly owned Indian based subsidiary of AdvantCom), was allotted to investors in return for approximately \$5,000.

Certain rental, operational and administrative services are provided by the Parent Company to the Company.

Basis of preparation

The principal accounting policies adopted in the preparation of the financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs and IFRIC interpretations) issued by the International Accounting Standards Board (IASB). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

1. Accounting policies (Cont.)

Assets and Liabilities in foreign currencies:

Henceforth are the details of the foreign currencies of the main currencies and the percentage changes in the reporting period:

	Year ended December 31,	
	2009	2008
NIS (New Israeli Shekel)	0.265	0.263

	Year ended December 31,	
	2009	2008
	%	%
NIS (New Israeli Shekel)	0.76	1.15

Changes in accounting policies

Adoption of new and revised International Financial Reporting Standards (IFRS):

- IFRS 8 - Operating Segments:

IFRS 8 ("the Standard") discusses operating segments and replaces IAS 14. The Standard applies to companies whose securities are traded or are in the process of filing with any securities stock exchange. The Standard is effective for annual financial statements for periods beginning after January 1, 2009. Earlier application is permitted. The provisions of the Standard will be applied retrospectively, by restatement, unless the necessary information is not available or impractical to obtain.

The Standard determines that an entity will adopt a management approach in reporting on the financial performance of the operating segments. The segment information would be the information that is internally used by management in order to assess its performance and allocate resources to the operating segments.

Furthermore, information is required to be disclosed about the products or services (or group of products and similar services) from which the entity derives its revenues, the countries in which these revenues or assets are derived and major customers, irrespective of whether management uses this information for making operating decisions.

The implementation of the new Standard has had no impact on the Company's reportable operating segments.

1. Accounting policies (Cont.)

- IAS 23 (Revised) - Borrowing Costs:

In accordance with the revised IAS 23, borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset must be capitalized. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale and includes fixed assets, investment property and inventories that take a substantial period of time to get ready for sale. The possibility of immediately carrying these costs as an expense has been removed.

The revised Standard is effective for the financial statements for the year beginning January 1, 2009. Earlier application is permitted.

The implementation of IAS 23 (Revised) has had no impact on the reported results or financial position of the Company.

- IAS 1 (Revised) - Presentation of Financial Statements:

IAS 1 (Revised) requires entities to present a second statement, a separate "statement of comprehensive income" displaying , other than the net income taken from the statement of income, all the items carried in the reported period directly to equity that do not result from transactions with the shareholders in their capacity as shareholders (other comprehensive income) such as adjustments arising from translating the financial statements of foreign operations, fair value adjustments of available-for-sale financial assets, changes in revaluation surplus of fixed assets and such and the tax effect of these items carried directly to equity, while properly allocated between the Company and the minority interests. Alternatively, the items of other comprehensive income may be displayed along with the items of the statement of income in a single statement entitled "statement of comprehensive income" which replaces the statement of income, while properly allocated between the Company and the minority interests. Items carried to equity resulting from transactions with the shareholders in their capacity as shareholders (such as capital issues, dividend distribution etc.) will be disclosed in the statement of changes in equity as will the summary line carried forward from the statement of comprehensive income, while properly allocated between the Company and the minority interests.

IAS 1 (Revised) also prescribes that in cases of restatement of comparative figures as a result of the retroactive adoption of a change in accounting policy, the entity must include an opening balance sheet disclosing the restated comparative figures.

IAS 1 (Revised) is effective for annual financial statements for periods beginning after January 1, 2009. Earlier application is permitted.

The Company initially implemented IAS 1 (Revised) as of January 1, 2009 by disclosing the comparative figures of income statement according IAS 1 (Revised) (Statements of Comprehensive Income).

1. Accounting policies (Cont.)

- IFRS 2 (Revised) - Share-based Payment:

Pursuant to the IFRS 2 (Revised) ("the revised Standard"), the definition of vesting terms will only include service conditions and performance conditions and the settlement of a grant that includes non-vesting conditions by the Company or the counterparty, will be accounted for by way of vesting acceleration and not by forfeiture. The Standard will be applied retrospectively for financial statements for periods beginning on January 1, 2009. Earlier application is permitted.

Vesting conditions include service conditions which require the counterparty to complete a specified period of service and performance conditions which require specified performance targets to be met.

Conditions that are other than service and performance conditions will be viewed as non-vesting conditions and must therefore be taken into account when estimating the fair value of the instrument granted.

The implementation of IFRS 2 (Revised) has had no impact on the reported results or financial position of the Company.

- The Project for the improvement of the International Financial Reporting Standards 2008:

In May 2008, the IASB published 35 amendments for its International Financial Reporting Standards. The amendments were performed for the Project for the improvement of the International Financial Reporting Standards 2008. Some of the amendments refer only to definitions and editing and some refer to recognition, measurement, disclosure and presentation and could affect current accounting policy. Most of the amendments are on annual reports for periods beginning on 1 January, 2009 or after. The amendments can be adopted early, subject to certain conditions.

The implementation of these amendments has had no impact on the reported results or financial position of the Company

- IAS 19 (Revised) - Benefit Plans as part of the project for the improvement of the International Financial Reporting Standards 2008 (hereinafter: "IAS 19 amendment"):

The amendment to IAS 19 is effective for annual financial statements for periods beginning on January 1, 2009 or after. The implementation of IAS 19 (Revised) has had no impact on the reported results of financial position of the Company.

Impact of recently issued accounting standards prior to their adoption:

- IFRS 3 (Revised) - Business Combinations and IAS 27 (Revised) - Consolidated and Separate Financial Statements:

IFRS 3 (Revised) and IAS 27 (Revised) ("the Standards") will be effective for annual financial statements for periods beginning on January 1, 2010. The combined early adoption of the two Standards is permitted from the financial statements for periods beginning on January 1, 2008.

The principal changes expected to take place following the adoption of the Standards are:

- (a) IFRS 3 currently prescribes that goodwill, as opposed to the acquiree's other identifiable assets and liabilities, will be measured as the excess of the cost of the acquisition over the acquirer's share in the fair value of the identifiable assets, net on the acquisition date. According to the Standards, goodwill can be measured at its full fair value and not only based on the acquired part, this in respect of each business combination transaction measured separately
- (b) A contingent consideration in a business combination will be measured at fair value and changes in the fair value of the contingent consideration, which do not represent adjustments to the acquisition cost in the measurement period, will not be simultaneously recognized as goodwill adjustment. Normally, the contingent consideration will be considered a financial derivative within the scope of IAS 39 and will be presented at fair value through profit or loss.
- (c) Direct acquisition costs attributed to a business combination transaction will be recognized in the statement of income as incurred as opposed to the previous requirement of carrying them as part of the consideration of the cost of the business combination, which has been removed.
- (d) A minority transaction, whether a sale or an acquisition, will be accounted for as an equity transaction and will therefore not be recognized in the statement of income or have any effect on the amount of goodwill, respectively.
- (e) A subsidiary's losses, although resulting in the subsidiary's deficiency, will be allocated between the parent company and minority interests, even if the minority has not guaranteed or has no contractual obligation of sustaining the subsidiary or carrying out another investment.
- (f) On the loss of control of a subsidiary, the remaining investment in the subsidiary, if any, will be revalued to fair value against gain and loss from the sale and this fair value will represent the cost basis for the purpose of subsequent treatment.

The Company believes that the effect of the Standards on its financial condition, results of operations and cash flows is not expected to be material.

1. Accounting policies (Cont.)

- Amendments to IFRS 2 - Group Cash-settled Share-based Payment Transactions

In June 2009 the International Accounting Standards Board amended IFRS 2 to clarify its scope and the accounting for group cash-settled share-based payment transactions in the separate or individual financial statements of the entity receiving the goods or services when that entity has no obligation to settle the share based payment transaction. The amendments also incorporate the guidance contained in the following Interpretations:

- IFRIC 8 Scope of IFRS 2
- IFRIC 11 IFRS 2—Group and Treasury Share Transactions.

The Company believes that the revised Standard will have no effect on its reported results or financial position.

- The Project for the improvement of the International Financial Reporting Standards 2009:

In November 2009, the IASB issued amendments to IAS 24 Related Party Disclosures. The amendments modify the definition of a related party and simplify related party disclosures for government-related entities.

These amendments will be adopted in financial statements for the period beginning 1 January 2011. The Group is not government-related; therefore the disclosure exemptions will not affect the Group. However, some disclosures may be affected by the changes in the detailed definition of a related party. This may result in amendments to the relevant related party disclosures in the financial statements.

Revenue recognition

1. Revenues from services are recognized as follows:

In fixed fee contracts - according to International Accounting Standard No. 11 “Construction - Type Contracts pursuant to which revenues and costs are reported by the “percentage of completion” method.

The percentage of completion is determined by dividing actual completion costs by the anticipated completion costs.

In cases where a loss from a project is anticipated, a provision is made in the period in which it first becomes evident, for the entire loss anticipated until completion, as assessed by the Group’s management.

2. Revenues from sales of products are recognized when all the significant risks and rewards of ownership of the goods have passed to the buyer and the seller no longer retains continuing managerial involvement. The delivery date is usually the date, on which ownership passes, provided no significant vendor obligations remain.
3. Finance income comprise interest income on amounts invested, changes in fair value of financial assets at fair value through profit or loss, exchange gains recognized in the statement of income. Interest income is recognized as it accrues using the effective interest method.

1. Accounting policies (Cont.)

Basis of consolidation

Where the company has the power, either directly or indirectly, to govern the financial and operating policies of another entity or business so as to obtain benefits from its activities, it is classified as a subsidiary.

The consolidated financial statements present the results of the company and its subsidiaries ("the group") as if they formed a single entity. Intercompany transactions and balances between group companies are therefore eliminated in full.

Consolidated financial statements

The accounting policy in the financial statements of the subsidiaries was applied consistently and uniformly with the policy applied in the financial statements of the Company.

Goodwill

Goodwill represents the excess of the cost of a business combination over the interest in the fair value of identifiable assets, liabilities and contingent liabilities acquired. Cost comprises the fair values of assets given, liabilities assumed and equity instruments issued, plus any direct costs of acquisition.

Goodwill is capitalized as an intangible asset with any impairment in carrying value being charged to the income statement.

From the beginning of the 2005 financial year, the Company adopted the precepts of International Accounting Standard 38 and International Financial Reporting Standard 3. Previously, the Company was amortizing its goodwill over a 10 year period on the straight line basis. The new policy requires that goodwill be tested on an annual basis and written down when impaired.

In accordance with the transitional rules of IFRS3, the Company has applied the revised accounting policy prospectively from the beginning of its first annual period beginning on or after 31 March 2004, i.e. 1 January 2005.

Impairment of non-financial assets

Impairment tests on goodwill and other intangible assets with indefinite useful economic lives are undertaken annually on December 31 or sooner when there are signs of impairment. Other non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount (i.e. the higher of value in use and fair value less costs to sell), the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit (i.e. the lowest Group's of assets in which the asset belongs for which there are separately identifiable cash flows). Goodwill is allocated on initial recognition to each of the Group's cash-generating units that are expected to benefit from the synergies of the combination giving rise to the goodwill.

1. Accounting policies (Cont.)

Impairment charges are included in the administrative expenses line item in the income statement, except to the extent they reverse gains previously recognized in the statement of recognized income and expense. During the years 2008 and 2009 no impairment charges of non-financial assets were required.

Functional and reporting currency

The majority of the revenues of the Company are generated in U.S. dollars. In addition, a substantial portion of the Company's costs is incurred in U.S. dollars. The Company's management believe that the U.S. dollar is the primary currency of the economic environment in which the Company operates. Thus, the functional and reporting currency of the Company is the U.S. dollar.

Foreign currency

Transactions entered into by the Group in a currency other than the currency of the primary economic environment in which it operates (the "functional currency") are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the balance sheet date. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are similarly recognized immediately in the income statement, except for foreign currency borrowings qualifying as a hedge instrument.

Financial assets

The Group classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The Group's accounting policy for each category is as follows:

Fair value through profit or loss: This category comprises only in marketable securities. They are carried in the balance sheet at fair value with changes in fair value recognized in the income statement.

Loans and receivables: These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and trade receivables, but also incorporate other types of contractual monetary asset. They are carried at amortized cost less any provision for impairment.

Held-to-maturity investments: These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that The Group's management has the positive intention and ability to hold to maturity. These assets are measured at amortized cost, with changes through the income statement. As of December 31, 2009, no such assets are held by the Group.

Available-for-sale: Non-derivative financial assets not included in the above categories are classified as available-for-sale and comprise The Group's strategic investments in entities not qualifying as subsidiaries, associates or jointly controlled entities. They are carried at fair value with changes in fair value recognized directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognized in the income statement. As of December 31, 2009, no such assets are held by the Group.

1. Accounting policies (Cont.)

Financial Liabilities

The Group classifies its financial liabilities into one of two categories, depending on the purpose for which the liability was acquired.

The Group's accounting policy for each category is as follows:

Fair value through profit or loss: This category comprises only in cashless options. It is carried in the balance sheet at fair value with changes in fair value recognized in the income statement in finance income or expense line.

Other financial liabilities: Other financial liabilities include the following items:

- Bank borrowings are initially recognized at fair value net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortized cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the balance sheet. Interest expense in this context includes initial transaction costs, as well as any interest or coupon payable while the liability is outstanding.
- Trade payables and other short-term monetary liabilities, which are initially recognized at fair value.

Internally generated intangible assets (research and development costs)

Expenditure on internally developed products is capitalized if it can be demonstrated that:

- it is technically feasible to develop the product for it to be sold;
- adequate resources are available to complete the development;
- there is an intention to complete and sell the product;
- The Company is able to sell the product;
- sale of the product will generate future economic benefits; and
- expenditure on the project can be measured reliably.

Capitalized development costs are amortized over the periods The Company expects to benefit from selling the products developed. The amortization expense is included within the cost of sales line in the income statement.

Development expenditure not satisfying the above criteria and expenditure on the research phase of internal projects are recognized in the income statement as incurred.

Development costs are recognized in the statement of income seeing as the Group does not meet the abovementioned conditions. As of December 31, 2009 no development costs are capitalized.

Deferred taxation

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability in the balance sheet differs to its tax base, except for differences arising on:

- the initial recognition of goodwill;

1. Accounting policies (Cont.)

Deferred taxation (cont)

- goodwill for which amortization is not tax deductible;
- the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit; and
- Investments in subsidiaries and jointly controlled entities where The Company is able to control the timing of the reversal of the difference and it is probable that the difference will not reverse in the foreseeable future.

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilized.

The amount of the asset or liability is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the deferred tax liabilities/(assets) are settled/(recovered). Deferred tax balances are not discounted.

Taxes on income

Tax-exempt income derived from “approved enterprises” will be subject to tax in the event of distribution of dividends out of such income. Such additional tax has not been provided for in the financial information, since the current policy of the Company is not to distribute dividends incurring additional tax.

Inventories

Inventories are initially recognized at cost, and subsequently at the lower of cost and net realizable value. Cost comprises all costs of purchase.

Weighted average cost is used to determine the cost of ordinarily interchangeable items.

Property, plant and equipment

Items of property, plant and equipment are initially recognized at cost. As well as the purchase price, cost includes directly attributable costs and the estimated present value of any future costs of dismantling and removing items. The corresponding liability is recognized within provisions. Depreciation is computed by the straight line method, based on the estimated useful lives of the assets, as follows:

	<u>Rate of depreciation</u>
Machinery and equipment	6 - 20 %
Leasehold improvements	15 %
Computers	10 - 33 %
Office furniture and equipment	6 - 15 %

Leasehold improvements are depreciated over the term of the expected lease including optional extension, or over the estimated useful lives of the improvements, whichever is shorter.

1. Accounting policies (Cont.)

Cash and cash equivalents

Cash equivalents are considered by the Group to be highly-liquid investments, including, inter alia, short-term deposits with banks, the maturity of which did not exceed three months at the time of deposit and which are not restricted.

Share-based payments

Where equity settled share options are awarded to employees, the fair value of the options at the date of grant is charged to the income statement over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each balance sheet date so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the income statement over the remaining vesting period.

Provision for warranty

The Group generally offers up to three years warranties on its products based on past experience, the Group does not record any provision for warranty of its products and services

Employee benefits

According to Israeli work laws, employment agreements in Israel and the Group's practice, the Group is obligated to pay severance payments to its employees upon dismissal and in some circumstances, even if the employee has resigned or retired. The Group's obligation for severance pay is dealt as a "defined benefit plan".

The severance pay's provision, as shown in the balance sheet, represents the present value of the defined benefit plan as of the balance sheet's date. The provision is calculated by independent actuaries based on the "Projected Unit Credit" method. The provision's present value is determined by the capitalization of future expected cash flows (after taking in consideration future wages growth's rate) on the basis of government bonds' interest rates stated in the same currency as the benefits' payments.

With there occurrence, the Group credits the actuary gains or losses, that have derived as a result of actuary assumptions and as a result of changes between previous assumptions and the actual results, to the income statement.

The Group acquires insurance polices and deposits in severances funds according to its obligation.

The privilege to severance pay by the insurance policies is considered a return of expenses, whereas it is certain that the insurance Group will, fully or partially, return the expenses needed to cover the severance pay obligation.

1. Accounting policies (Cont.)

Employee benefits(cont)

The return of expenses' right that results from the severance pay funds is presented at fair value, whereas the changes are credited to the Statements of Comprehensive Income.

Transactions with controlling parties

Transactions with controlling shareholders are disclosed in conformity with the provisions of the International Accounting Standard 24 (related party disclosures and transactions).

Earnings per Share (EPS)

Earnings per Share is determined and presented in accordance with IAS 33.

Basic net earnings per share are computed based on the weighted average number of common shares outstanding during each year. Diluted earnings per share is computed based on the weighted average number of common shares outstanding during each year, plus dilutive potential common shares considered outstanding during the year.

Segment reporting

An operating segment is a component of the Group that meets the following three criteria:

1. is engaged in business activities from which it may earn revenues and incur expenses;
2. Whose operating results are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and
3. For which separate financial information is available.

The principles activities of the Group and its primary segments are:

- Antennas produced for commercial market.
- Antennas produced for the military market.

The secondary segments of the Group are geographic:

- Israel
- North America
- Europe
- Asia
- Other

Segment revenue and segment costs include items that are attributable to the relevant segments and items that can be distributed among segments. Non-distributed items include the Group's financial income and expenses and tax.

6. Tax expense

A. Tax Laws in Israel:

1. Law for the Encouragement of Capital Investments, 1959:

Pursuant to the provisions of the said law, the company is eligible for tax benefits resulting from implementation of programs for investment in assets, in accordance with the letters of approval they received ("approved enterprises"), which grant the Group the right to exemption from tax for a period of two year and subsequent to such period - to tax at a reduced rate of 25% on income derived from the approved enterprise, subject to fulfilment of the conditions stipulated in the letter of approval.

The period in which the company will enjoy the tax exemption or reduced tax rate is limited in each letter of approval to seven years from the first year in which taxable income is earned (actual - from the year 2005). If the percentage of a company's share capital held by foreign shareholders exceeds 25%, the company will be entitled to reduced tax rates for a further five years.

From the year 2008 the company decided to no longer take advantage of the reduced tax rate. If the company distributes dividends out of the exempt income of the approved enterprise, the company will be subject to tax at the rate of 25% on the distributed income.

6. Tax expense (Cont.)2. Tax rates:

In July 2005, due to new tax legislation, the reduction in the tax rate for Israeli Companies was accelerated. On July 1, 2004 and in 2005, the Corporate tax rate was reduced to 35% for 2004 tax year, 34% for the 2005 tax year, 31% for the 2006 tax year, 29% for the 2007 tax year, 27% for the 2008 tax year, 26% for the 2009 tax year and 25% for the 2010 tax year and thereafter.

In July 2009, the "Knesset" (Israeli Parliament) passed the Economic Efficiency Law 2009, which prescribes, among other things, an additional gradual reduction in the Israeli corporate tax rate starting from 2011 to the following tax rates: 2011 - 24%, 2012 - 23%, 2013 - 22%, 2014 - 21%, 2015 - 20%, 2016 and thereafter - 18%.

3. Income Tax (Inflationary Adjustments) Law, 1985:

According to the law, until 2007, the results for tax purposes were measured based on the changes in the Israeli CPI.

In February 2008, the "Knesset" (Israeli parliament) passed an amendment to the Income Tax (Inflationary Adjustments) Law, 1985, which limits the scope of the law starting 2008 and thereafter. Starting 2008, the results for tax purposes are measured in nominal values, excluding certain adjustments for changes in the Israeli CPI carried out in the period up to December 31, 2007. The amendment to the law includes, inter alia, the elimination of the inflationary additions and deductions and the additional deduction for depreciation starting 2008.

B. Income tax assessments:

The Company has tax assessments considered as final up and including the year 2004.

	<u>2009</u> <u>\$'000</u>	<u>2009</u> <u>\$'000</u>	<u>2008</u> <u>\$'000</u>	<u>2008</u> <u>\$'000</u>
<i>Current tax expense</i>				
Israeli income tax on profits for the year	38		224	
Taxes for previous years	<u>-</u>		<u>52</u>	
		<u>38</u>		<u>276</u>
<i>Deferred tax income</i>				
Origination and reversal of temporary differences	<u>4</u>		<u>22</u>	
		4		22
Total tax charge		<u><u>34</u></u>		<u><u>254</u></u>

M.T.I Wireless Edge Ltd.**Notes forming part of the consolidated financial statements for the year ended December 31, 2009****6. Tax expense (Cont.)**

The reasons for the difference between the actual tax charge for the year and the standard rate of corporation tax in Israel applied to profits for the year are as follows:

	<u>2009</u> <u>\$'000</u>	<u>2008</u> <u>\$'000</u>
Profit before tax	46	1,247
Expected tax charge based on the standard rate of corporation tax in Israel of 26% (2008 - 27%)	12	337
Expenses not deductible for tax purposes	13	92
Income (Loss) not subject to tax	33	(81)
Losses and temporary differences for which deferred taxes were not recorded	(42)	(89)
Taxes in respect of previous years	-	52
Other	18	(57)
Total tax charge	<u>34</u>	<u>254</u>

7. Earnings per share

	<u>2009</u> <u>\$'000</u>	<u>2008</u> <u>\$'000</u>
Earnings used in basic EPS	17	993
Earnings used in diluted EPS	17	993
Weighted average number of shares used in basic EPS	51,571,990	52,480,041
Weighted average number of shares used in diluted EPS	<u>51,571,990</u>	<u>52,480,041</u>
Basic net EPS	<u>0.0003</u>	<u>0.0189</u>
Diluted net EPS	<u>0.0003</u>	<u>0.0189</u>

The employee options have been excluded from the calculation of diluted EPS as their exercise price is greater than the weighted average share price during the year (i.e. they are out-of-the-money) and therefore it would not be advantageous for the holders to exercise those options. The total number of options in issue is disclosed in note 22.

8. Dividends

	<u>2009</u> <u>\$'000</u>	<u>2008</u> <u>\$'000</u>
Dividend of 1.16 (2008 - 1.85) cents per ordinary share proposed and paid during the year relating to the previous year's results	<u>598</u>	<u>979</u>

	<u>2,607</u>	<u>3,529</u>

17. Financial instruments - Risk Management

The Group is exposed through its operations to one or more of the following financial risks:

- Foreign currency risk
- Credit risk

Foreign currency risk

Foreign exchange risk arises when Group operations enter into transactions denominated in a currency other than their functional currency. Management does mitigate that risk by holding cash and cash equivalents and deposit accounts in Israeli NIS.

Credit risks

Financial instruments which have the potential to expose the Group to credit risks are mainly trade receivables, other receivables and long term debts.

The Group holds cash and cash equivalents and deposit accounts at large banks in Israel and in the Switzerland, thereby substantially reducing the risk of loss.

17. Financial instruments - Risk Management (Cont.)

With respect to trade receivables, the Group believes that there is not a material credit risk in light of the fact that the Group's policy to assess the credit risk instruments of customers before entering contracts.

Moreover, the Group evaluates trade receivables on a day to day basis and adjusts the allowance for doubtful accounts accordingly.

As indicated above the main currency risk of the Company relates to changes in the exchange rate between US\$ and NIS. In 2009 the Company accrued employees compensation costs related to NIS totaling US \$4,482,000. In addition the company is working with few key vendors in NIS and the total purchases from them were US \$837,000 in 2009. Therefore, the total material exposed amount to the NIS – US\$ exchange rate was US \$5,319,000, which indicates that any increase of 1% in the NIS rate against the US \$ would increase the costs to the company by approximately US \$53,000.

Fair value

The carrying amount of cash and cash equivalents, short-term investments, trade receivables, other accounts receivable, trade payables and other accounts payable approximate their fair value.

Classification of financial instruments by fair value hierarchy:

The financial instruments presented in the balance sheet at fair value are grouped into classes with similar characteristics using the following fair value hierarchy which is determined based on the source of input used in measuring fair value:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable either directly or indirectly.
- Level 3 - Inputs that are not based on observable market data (valuation techniques which use inputs that are not based on observable market data).

Financial assets measured at fair value:

December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
	<u>\$'000</u>		
Financial assets at fair value through profit or loss:			
marketable securities	<u>10,346</u>	<u>-</u>	<u>-</u>

Supplementary information

- The Group's liabilities for severance pay retirement and pension pursuant to Israeli law and employment agreements are full covered - in part by managers' insurance policies, for which the Group makes monthly payments and accrued amounts in severance pay funds and the rest by the liabilities which are included in the financial statements
- The amounts accrued in managers' insurance funds are registered under the name of the employees, and therefore such amounts are not stated in the financial information as liability for termination of employee-employer relationships or amounts funded.

18. Employee benefits (Cont.)

3. The amounts funded displayed above include amounts deposited in severance pay funds with the addition of accrued income. According to the Severance Pay Law, the aforementioned amounts may not be withdrawn or mortgaged as long as the employer's obligations have not been fulfilled in compliance with Israeli law.
4. Principal nominal actuarial assumptions:

	As at December 31, 2009	As at December 31, 2008
Discount rate on plan liabilities	5.13%	5.3%
Expected rate of return on plan assets	5.05%	5.02%
Expected increase in pensionable salary	3%	0%-3.5%

- D.** The expenses and income in the income statement from employee benefits are included as salary and wage expenses in the relevant clauses.

Expenses recognized in the statement of income:

	As at December 31	
	2009	2008
	\$'000	\$'000
Current service cost	54	56
Interest cost on benefit obligation	41	47
Expected return on plan assets	(26)	(31)
Net actuarial loss recognized in the year	(30)	(123)
Past service cost	(29)	13
Total employee benefit expenses	10	(38)

The expenses are presented in the statement of income as follows:

Cost of sales	12	(21)
Research and development expenses	3	(8)
Selling and marketing expenses	(6)	(7)
General and administrative expenses	1	(2)
	10	(38)

19. Provisions

	Legal disputes	Royalties to BIRD Foundation	Total
	\$'000	\$'000	\$'000
<i>At 1 January 2009</i>	30	-	30
Charged to profit or loss	-	50	50
<i>At 31 December 2009</i>	<u>30</u>	<u>50</u>	<u>80</u>
Due within one year or less	-	-	-
Due after more than one year	30	50	80
	<u>30</u>	<u>50</u>	<u>80</u>

- A. The Group is currently involved in a legal dispute (see note 23C - contingent liability).
- B. During 2009 the Company received a Conditional Grant from the Israel-U.S. Bi-national Industrial Research and Development Foundation (henceforth "BIRD"). The Company is obligated to repay BIRD the total Conditional Grant received, referred to as "the Repayment". Repayments are made at the rate of 5% of each \$ of reported sales revenue up to a maximum of 150% of its investment linked to the U.S. Consumer Price Index (CPI), from revenue generated by the Product's sales upon successful commercialization.

20. Deferred Tax

Deferred tax is calculated on temporary differences under the liability method using the tax rate at the year the deferred tax assets are recovered.

The movement on the deferred tax account is as shown below:

	2009	2008
	\$'000	\$'000
<i>At 1 January 2009</i>	117	95
Profit and loss charge	4	22
<i>At 31 December 2009</i>	<u>121</u>	<u>117</u>

Deferred tax assets have been recognized in respect of all differences giving rise to deferred tax assets because it is probable that these assets will be recovered.

Deferred tax assets and liabilities are only offset where there is a legally enforceable right of offset and there is an intention to settle the balances net.

Details of the deferred tax amounts charged to reserves are as follows:

	Charged to reserves 2009	Charged to reserves 2008
	\$'000	\$'000
Accrued severance pay	46	60
Other provisions for employee-related obligations	75	57
	<u>121</u>	<u>117</u>

21. Share capital

	Authorized			
	2009	2009	2008	2008
	Number	NIS	Number	NIS
Ordinary shares of NIS 0.01 each	100,000,000	1,000,000	100,000,000	1,000,000
	Issued and fully paid			
	2009	2009	2008	2008
	Number	NIS	Number	NIS
<i>Ordinary shares of NIS 0.01 each at beginning of the year</i>	51,571,990	515,720	53,779,998	537,800
Buy back purchase of shares*	-	-	2,208,008	22,080
At end of the year	<u>51,571,990</u>	<u>515,720</u>	<u>51,571,990</u>	<u>515,720</u>

* During 2008 the Company purchased for cancellation 2,208,008 ordinary shares for total of US \$917,000.

22. Share-based payment

An option scheme for key Directors and Employees was approved at the company's Annual General Meeting on May 15th, 2008. Under the plan, options for 1.5 million shares were granted on July 15, 2008. The vesting date of 1st April 2011 and an exercise price of 30 pence (representing approximately 60 cents at the time of grant, 49 cents as of December 31, 2009) per share. The fair value for each option according Black and Scholes option pricing method which was used is 5 pence (approximately 11 cents at the time of grant, 8 cents as of December 31, 2009).

The options were granted as part of a plan that was adopted in accordance with the provision of section 102 of the Israeli Income Tax Ordinance.

	2009	2009	2008	2008
	weighted average exercise price	Number	weighted average exercise price	Number
	\$		\$	
Outstanding at beginning of year	0.44	1,500,000	-	-
Granted during the year	-	-	0.44	1,500,000
Forfeited during the year	-	-	-	-
Exercised during the year	-	-	-	-
Lapsed during the year	-	-	-	-
Outstanding at the end of the year	<u>0.49</u>	<u>1,500,000</u>	<u>0.44</u>	<u>1,500,000</u>

23. Commitments and guarantees

A. Royalty commitments

The Group is committed to pay royalties to the Government of Israel on proceeds from sales of products in the research and development of which the Government participates by way of grants. Under the terms of Group's funding from the Israeli Government, royalties of 2%-3.5% are payable on sales of products developed from a project so funded, up to 100% of the amount of the grant received, including amounts received by the Parent Group through July 1, 2000.

The maximum royalty amount payable by the Group at December 31, 2009 is US\$ 470,000.

During the year 2009 the Group did not pay any royalties.

B. Guarantees

The Group has guarantees in favour of customers in the amount of US\$ 398,000. The guarantees are mainly to guarantee advances received from customers.

C. Contingent liability

On July 3, 2005, Mars Antenna RF Systems Ltd. ("Mars") filed a complaint (Civil Case No. 05/1867) in the District Court of Tel Aviv-Yafo against the Group, the parent Group and the CEO of the Group.

The lawsuit relates to certain printed circuits in three models of antennas that the Group sells to one of its customers. Mars claims that the printed circuits are an infringement of Mars' rights in its antennas, raising causes of action under copyright, passing off, unjust enrichment, negligence, breach of statutory duty and the Law for Protection of Integrated Circuits.

The lawsuit seeks monetary damages in the nominal sum of 100,000 NIS, (approximately - US\$ 26,300 which it reserves the right to modify in the future) and a permanent injunction, collection of the accused antennas, appointment of a receiver and an accounting of profits.

In addition, Mars petitioned for provisional remedies prior to final judgment, including preliminary injunction, temporary receivership, and collection of the accused antenna. The Group answered the claims, stating that Mars does not own the copyright in the relevant circuits, that the Law for Protection of Integrated Circuits does not apply to the antennas, that consumers are not confused by any similarity, and other defences.

On 22 December 2005, the District Court partially granted Mars' petition for Provisional remedies and preliminarily enjoined the Group from manufacturing and selling the relevant antennae. On 26 December 2005, the Group moved for a stay of enforcement of the preliminary injunction until the Supreme Court's decision on the Group's anticipated petition for interlocutory appeal. On 26 October 2006, the Supreme Court acknowledges, in part, the Group's claim and cancelled the petition with regard to a specific client for which the antennas were sold.

22. Commitments and guarantees (Cont.)

C. Contingent liability (Cont.)

In addition, on November 3, 2005, the Group filed a complaint against Mars (Civil Case No. 05/2422) in the District Court of Tel Aviv-Yafo for infringement of the Group's design of its radome covers for antennas and its mounting kit. The lawsuit seeks monetary damages in the nominal sum of 500,000 NIS, (approximately US\$ 131,510 which it reserves the right to modify in the future), and a permanent injunction. In its answer, filed January 5, 2006, Mars defended against the Group's claim, itself issuing a counter-claim, stating that the legal action taken by the Group presents improper usage of the legal procedures and therefore is entitled to compensation as a result of damages caused by unfounded claims. On July 2, 2006, the court confirmed the Group's request to combine the two law-suits that were filed. The court also ruled that the hearings will begin on May 9, 2007.

On May 9, 2007 a court hearing in the joint case was held. In the hearing Mars filed a request to enlarge the suit amount to 2M NIS, approximately US\$ 526,040, and to order MTI to revile the number of antennas under the case that were sold. Mars request re enlarging the amount was approved and the other request was not answered yet. The next court hearing was set to March 2nd, 2008.

On November 20, 2008 Mars filed an enlargement suit for the total amount of 2M NIS, approximately US\$ 526,040, and to order MTI to revile the number of antennas under the case that were sold, claiming that the replacement antennas developed by the Company is infringing Mars rights as well.

The next court hearing was set to March 14, 2010.

The information usually required by IAS 37 Provisions, contingent liabilities and contingent assets is not disclosed on the grounds that it can be expected to prejudice seriously the outcome of the litigation.

M.T.I Wireless Edge Ltd.

Notes forming part of the consolidated financial statements for the year ended December 31, 2009

24. Transactions with related parties

The Parent Group and other related party provides certain services to the Group as follows:

	2009	2008
	<u>\$'000</u>	<u>\$'000</u>
Purchased Goods	127	164
Management Fee	227	253
Services Fee	160	145
Lease	<u>317</u>	<u>317</u>
Total	831	879

All Transactions are made on market value.

As of December 31, 2009 the Group owes to the parent group and related party US \$57,000 (2008: US \$167,000).

25. Subsequent events

The financial statements were authorized for issue by the board as a whole following their approval on February 25, 2010.
